

As at 5 October 2017

Booster offers three explicit socially responsible investment fund options in the INVESTMENT Series, which exclude investments that are inconsistent with certain values-based criteria. Specifically, investments in directly-held companies and managed fund investments with more than an incidental proportion of revenue generated from the following activities are excluded:

- Alcohol Production
- Gambling Operations
- Tobacco Production, Distribution, Supply and Retailing
- Military Weapons Manufacturing
- Civilian Firearms Production, Distribution, Supply and Retailing
- Nuclear Power Production, Distribution and Uranium Mining
- Fossil Fuels Exploration, Extraction, Refinement, Distribution, Supply and Retailing
- Adult Entertainment Content Production
- Genetically Modified Organisms (GMO), excluding Research and Development

All investment decision-making will be consistent with The Principles for Responsible Investment as developed by institutional investors and convened by the United Nations. Amongst other things, this implies that environmental, social, and governance considerations will be explicitly included in all individual security and fund recommendations.

⌘ The Responsible Investment Certification Program does not constitute financial product advice. Neither the Certification Symbol nor RIAA recommends to any person that any financial product is a suitable investment or that returns are guaranteed. Appropriate professional advice should be sought prior to making an investment decision. RIAA does not hold an Australian Financial Services Licence.

CERTIFIED BY RIAA

This fund has been certified by RIAA according to the strict operational and disclosure practices required under the Responsible Investment Certification Program. See www.responsibleinvestment.org for details.^a

Investment Objective and Strategy

The Socially Responsible Conservative Fund aims to achieve a rate of return (before tax but after fees) of at least 2.5% above inflation over rolling four year periods and with a moderate level of risk. The Fund invests in a diversified portfolio of mainly income-generating fixed interest securities, combined with a moderate exposure to capital growth assets. It currently excludes investments where the underlying activities are principally involved in the areas noted above.

Risk Indicator

The Risk Indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

Target Asset Allocation

Income Assets **65%** Growth Assets **35%**

Fund Characteristics

	PIR			
	0%	10.5%	17.5%	28%
Expected Long Term Return Forecast (p.a. after fees)	5.3%	4.9%	4.6%	4.2%
Range of expected returns in any one year (p.a. after fees)*	-4% to 15%	-4% to 15%	-4% to 14%	-5% to 14%
Range of expected returns in any rolling ten year period (p.a. after fees)*	2% to 9%	2% to 8%	1% to 8%	1% to 7%

*Expected returns are calculated based on long-run expectations for investment markets and fund performance, and are not a guarantee of future results. The calculation takes information on how market returns have varied in the past and gives a range of what is assessed to be likely in the future. The ranges of expected returns have been calculated using a statistical tool of 2 ½ standard deviations of return volatility – this means that actual returns are expected to fall outside these ranges 1 year out of every 100.
